**DETAILED ACTION**

***Allowable Subject Matter***

1. Claims 1, 4, 9-14, 16-17, 20, 22-24, 26 and 47 (renumbered as claims 1-16) are allowed.

2. The following is an examiner's statement of reasons for allowance:

Regarding claims 1, 4, 9-14, 16-17 and 20, the prior art does not disclose the claimed optical alignment target particularly characterized by the limitations drawn to a planar central portion and contoured contrasting region that surrounds the planar central region wherein the optical alignment target can be readily detected from the contrast between the planar central portion and the contoured contrasting region that surrounds the planar central region.

Regarding claims 23-24 and 26, the prior art does not disclose the claimed method of manufacture of a target particularly characterized by the limitations drawn to formation of contoured contrasting region surrounding a planar central portion wherein the target can be readily detected from the contrast between the planar central portion and the contoured contrasting region that surrounds the planar central region.

Regarding claims 22 and 47, the prior art does not disclose a target characterized by first, second and third layers, the first layer having a patterned topographical contour that is at least partially projected through the second layer to the third layer, wherein a barrier layer is disposed above the second layer and an orifice plate is disposed above the barrier layer.

Art Unit: 2826

Applicant's claimed invention provides an optical target that can be easily identified using either indirect or direct lighting.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
